

komodoKAMS™

KomodoKAMS™ is the world's **FIRST** robotic camera solution tailored **SPECIFICALLY** for the needs and usage patterns of the childcare industry. Unlike "traditional" classroom web cameras, komodoKAMS™ empowers parents to **control** the cameras through a simple, easy-to-use web interface. Parents can watch their children, **UP CLOSE** using **PAN**, **TILT** and **ZOOM** functions, as they eat, sleep or do finger painting! KomodoKAMS™ brings parent involvement in their child's day to a entirely new level, thus increasing parent retention, positive word of mouth, enrollment and of course profits!

Parents directly control the pan/tilt/zoom functions of the camera and only have access to their children's classrooms

komodoKAMS™ PARENT screen

komodoKAMS™ ADMINISTRATOR screen

KEY FEATURES

- **Parent Controlled** PAN/TILT/ZOOM cameras in classrooms and playgrounds.
- Advanced yet **easy to configure security implementation** (tailored **SPECIFICALLY** towards the childcare industry) which allows center directors complete control over camera access.
- Fully Integrated with **woollyWEB™** and **polarPARENT™** web portal systems.
- **AFFORDABLE!** Pays for itself with less than 1 enrollment!

School director's can **limit camera access** by individual user, classroom, time of day, and school hours of operation. Directors can also **EASILY change camera assignments, user-ids and passwords**, and disable any cameras without the need to contact a 3rd party company each time!

Get a **FREE!** woollyWEB™ custom website *subscription* with every komodoKAMS™ installation!
